

# Company Profile

In business since 1990, Meridian Health Informatics Pty Ltd (Meridian) devolved from the Meridian Information Services group in 2000, when growing business in the Australian Healthcare sector demanded an exclusive and dedicated focus on, and expertise in, this market.

Meridian has prospered through its exclusive focus on Healthcare IT, whilst Meridian Information Services continues to work, primarily, within the financial and banking sectors

Based in the city of Sydney, Australia, Meridian maintains a multi-disciplinary team of commercial and technical staff, with deep healthcare knowledge, expertise and experience.

Meridian has developed, and supports, information systems for the following areas:

- **Operating Theatres**
- **Obstetrics Units**
- **Ward Information and EHR**
- **Clinic management**
- **Risk and Incident Management and Recording**
- **Rostering and VMO Payment**
- **Asset tracking**

Recognised as a supplier of quality system solutions, software products and services, Meridian has an extensive user base across NSW Hospitals with a growing number of interstate sites. In addition to the development, marketing, implementation and support of packaged software applications, Meridian also maintains a solid custom development business, serving large Australian clients such as NSW Health, the Cancer Institute and the Brisbane Mater Hospital group.

Meridian was the first company to sign the new NSW Health 'Procure IT' agreement in December 2005.

Meridian is a Microsoft Gold Certified Partner
